

Noisemaker Aliens

Noisemaker Aliens

Create your own noisy little alien in just a few easy steps!

You will need:

- Small snack tube container with lid (such as a mini Pringles container)
- Coloured paper or cardboard
- Glue stick
- Clear sticky tape
- Lead pencil and ruler
- Scissors
- Sticker eyes or googly eyes
- Coloured markers to decorate.
- Any additional decorations you have (eg: pipe cleaners, pom poms and stickers)

STEPS

Step 1:

Using a ruler, measure how tall your cardboard tube is. Mark that length on your coloured piece of paper / card.

Step 2:

With scissors, cut out your strip of paper / card. Next, wrap the strip around the cardboard tube.

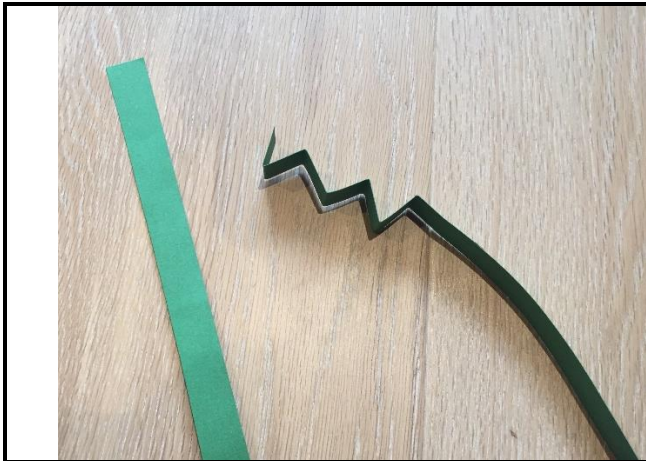

Step 3:

Stick your coloured strip to the cardboard tube with sticky tape or glue.

Step 4:

Now it's time to decorate! Add sticker / googly eyes (the more the better for an alien!) and draw on facial features.

Step 5:

Add arms (again, the more the better for an alien!) by cutting out strips of your coloured cardboard / paper and folding them using a concertina fold. It should look like a zig zag when you are done. Stick to the cardboard tube using sticky tape or glue.

Step 6:

To finish, add a dry ingredient (about half a cup) to the container to help your alien make noise! This could be rice, dried seeds or dry pasta.

TA DA!

If you try this at home, take a pic and send it to us at:
